

**The Cover:** APL's contributions in military and space communications systems design have historically been areas of major innovations. APL-developed communications systems have found applications in DoD and NASA programs, enabling major advancements in higher data rate and assured communications. An emerging developmental effort in optical and VHF (terahertz) communications systems may have future application in such areas as intersatellite communications. (Cover design by Kenneth R. Moscati.)

The *Johns Hopkins APL Technical Digest* (ISSN 0270-5214) is published quarterly under the auspices of The Johns Hopkins University Applied Physics Laboratory (JHU/APL), 11100 Johns Hopkins Road, Laurel, MD 20723-6099. The objective of the publication is to provide a summary of unclassified individual programs under way at JHU/APL. Subscriptions are free of charge, but are provided only to qualified recipients (government employees and contractors, libraries, university faculty members, and R&D laboratories). Requests for individual copies, subscriptions, or permission to reprint the text should be submitted to the Office of the Editor-in-Chief at the above address. Phone (240) 228-5625. E-mail [TechnicalDigest@jhuapl.edu](mailto:TechnicalDigest@jhuapl.edu).

The following abstracting services currently cover the *Johns Hopkins APL Technical Digest*: Astronomy and Astrophysics Abstracts; Chemical Abstracts; Current Contents; Science Citation Index; Deep Sea Research, Part B, Oceanographic Literature Review; Electrical/Electronic Abstracts; Engineering Index; International Aerospace Abstracts; Meteorological and Geostrophysical Abstracts; Oceanic Abstracts; Physics Abstracts; and the following CSA abstracts: Aquatic Sciences & Fisheries, Part 2, Oceanic; Computer & Information Sciences; Electronics & Communications; and ISMEC.

Postmaster: Send address changes to the *Johns Hopkins APL Technical Digest*, Rm. 1-W131, 11100 Johns Hopkins Road, Laurel, MD 20723-6099. Periodical postage paid at Laurel, MD.
